

MANHASSET SCHOOL COMMUNITY ASSOCIATION

Spring, 2021

Dear 12th Grade Parents,

Each year, the Educational Grants Committee of the Manhasset SCA administers funds to assist Manhasset High School graduates in furthering their education in academic, business and technical fields.

All seniors are eligible to apply for a need-based educational grant. Demonstrated financial need and character are the primary considerations for the SCA Educational Grant application. All applications are strictly confidential and the names of the recipients are not announced.

Limited funds make it impossible to underwrite the entire financial needs of any student. Over the past several years, grants have ranged from \$250 to \$2,000 per student, subject to annual renewal. Other private and government agencies that offer assistance should be explored prior to submitting the application.

Application forms are available for download on the SCA website (www.manhassetzca.org) and in the Guidance Office. The form must be completed and returned by May 21st for the committee to consider the application. Applications should be submitted even if the college financial aid process has not been finalized. Applicants will be notified of the Committee's decision at the earliest possible date. Please contact me, at the email below, with any questions.

Sincerely,

Ruth Geismar Paula Chiarucci
