

**WHEN YOU BUY NEW OR REPLACE YOUR
OLD ELECTRONICS THIS HOLIDAY SEASON
DON'T THROW THE OLD ONES AWAY!**

THE TOWN OF NORTH HEMPSTEAD

Is coming to pick up Electronic Recycling near You!

In an effort to assist the schools and the community with the proper disposal of electronic waste for the 4th year Supervisor Jon Kaiman is once again taking the electronic waste disposal program on the road into every community with a participating school recycling partnership at no cost to the schools or the residents.

Supervisor Kaiman recognizes that the top item on most people's gift list is electronics and many people will be replacing old and outdated items. By partnering with each district and making it more convenient for each resident to properly dispose of their old electronics you will be helping us divert tons of hazardous materials from entering the waste stream.

Electronics such as DVD players, cell phones, TV's and computers contain lead, mercury or arsenic, which seep into the ground water.

The Town urges all residents to take advantage of this convenient opportunity. In addition, e-waste recycling is always available every Sunday at 999 West Shore Road, Roslyn, NY from 7:30 am - 3:00pm and Town of North Hempstead Solid Waste Management Authority (SWMA) 802 West Shore Rd, Port Washington Monday - Friday from 8 am to 4 pm, excluding Holidays
